

# BAY AREA AIR QUALITY MANAGEMENT DISTRICT

95 00018  
Notice

## NOTICE OF PUBLIC HEARING ON BAY AREA 1994 CLEAN AIR PLAN AND TRIENNIAL PROGRESS REPORT

The Bay Area Air Quality Management District (BAAQMD), in consultation with the Association of Bay Area Governments (ABAG) and the Metropolitan Transportation Commission (MTC), has prepared a proposed final plan that addresses the State ambient air quality standard for ozone. The Bay Area 1994 Clean Air Plan ('94 CAP), including a Triennial Progress Report, was prepared in response to the California Clean Air Act of 1988, as amended. The '94 CAP is a required update to the Bay Area 1991 Clean Air Plan ('91 CAP). The '94 CAP will be presented for adoption at a public hearing conducted by the BAAQMD Board of Directors as part of their regular meeting:

**Wednesday, December 21, 1994 -- 9:30 a.m.**

7th Floor Board Room -- 939 Ellis Street, San Francisco, California  
(between Van Ness and Franklin)

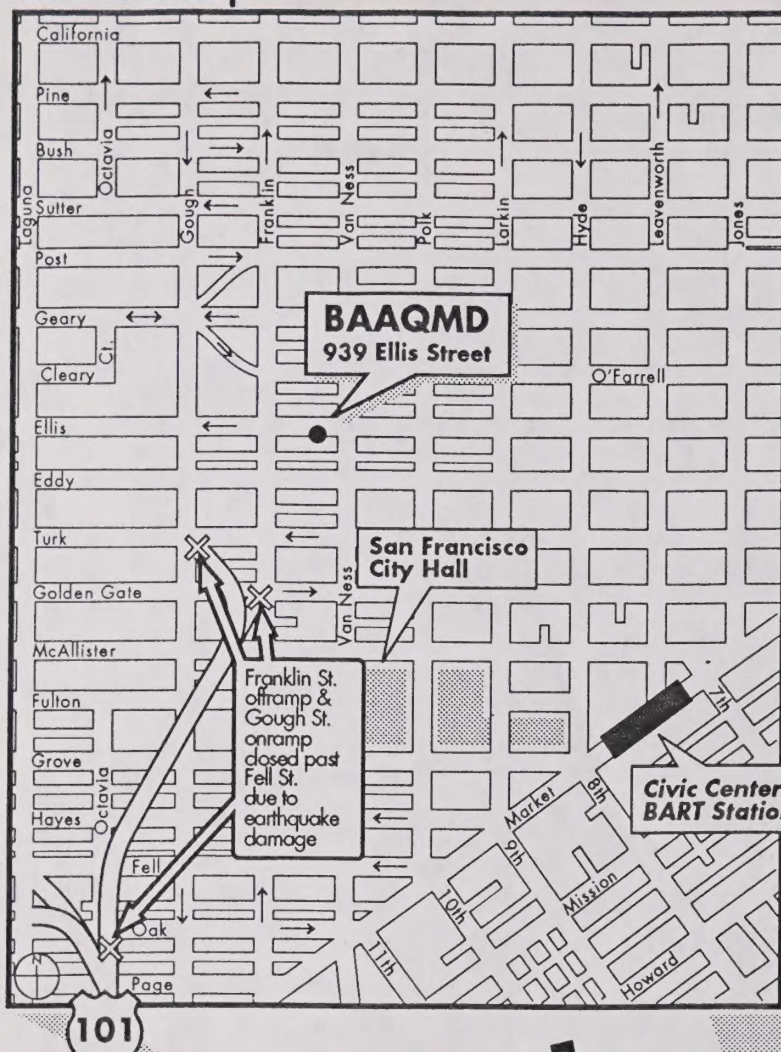

The public is invited to comment on the '94 CAP at the public hearing. Written comments on the Plan must be received by 5:00 p.m. on December 19, 1994. Send written comments to Milton Feldstein, BAAQMD, 939 Ellis Street, San Francisco, CA 94109. After the close of the public hearing, the Board of Directors will consider adoption of the '94 CAP.

As a minor update to the '91 CAP, the '94 CAP is within the scope of the program established by the '91 CAP. A program Environmental Impact Report (EIR) was prepared for the '91 CAP. Because only minor technical changes and additions were necessary to make the program EIR adequate for the '94 CAP, an addendum to the '91 CAP EIR has been prepared to satisfy the requirements of the California Environmental Quality Act for the '94 CAP.

The '94 CAP may be viewed at the BAAQMD Library at 939 Ellis Street, San Francisco, the ABAG/MTC Library at 101 Eighth Street, Oakland, or any of the ABAG depository libraries [call ABAG for locations - (510) 464-7900]. Three separate volumes of technical appendices are also available: Transportation Control Measure Descriptions, Stationary and Mobile Source Control Measure Descriptions, and Source Inventory Description. The '91 CAP EIR and the addendum addressing the '94 CAP may be viewed at the BAAQMD Library. Copies of the '94 CAP, the three technical appendices, and the EIR addendum may be obtained by calling the BAAQMD's Public Information Office at (415) 749-4900.

## Location Map

## Public Transit Access

### BART:

Civic Center Station (8th and Market Streets)

### Muni:

North & South on Van Ness Ave:

**42** (Downtown Loop), **47** (Van Ness)

**49** (Van Ness/Mission) to Van Ness & Eddy

### East & West:

**31** (Balboa) to Van Ness & Eddy
